PROFESSIONAL SUMMARY

B.Tech graduate in Computer Science and Engineering with hands-on experience in **Java full stack**, **MERN stack**, and web development. Proficient in designing scalable applications, building RESTful APIs, and optimising SQL queries. Strong foundation in **Spring Boot**, **React.js**, **Python**, and **MySQL**. Adept at delivering high-quality solutions that improve performance, reduce errors, and streamline workflows.

EXPERIENCE

Tech Mahindra

Dec 2024 – Present

Associate Software Engineer

Pune, Maharashtra

- Successfully completed hands-on training in Java, Spring Boot, Spring Framework, Hibernate, JPA, and DevOps as part of an in-company learning program.
- Gained practical experience building projects with these technologies, including developing RESTful APIs, managing databases, and implementing ORM using Hibernate, improving backend efficiency by 25%.

Evertz India Pvt Ltd

Jan 2024 – Jun 2024

Student Engineer

Bangalore, Karnataka

- Completed a 6-month onsite internship, contributing to project execution in a 6-member team using Jira for collaboration and Mediator tools for live streaming of 10+ events with 99% uptime.
- Automated audio file validation with Python and optimised SQL queries, reducing manual effort by 40%.

EDUCATION

KIT's College of Engineering, Kolhapur

July 2020 – July 2024

Bachelor of Technology in Computer Science - CGPA - 8.26

Kolhapur, Maharashtra

Relevant Coursework

- | | | | |
|----------------------|------------------------|-----------------------|--------------------|
| • Python Programming | • OOPS Concepts | • Algorithms Analysis | • Computer Network |
| • Data Structures | • Software Engineering | • Database Management | • Operating System |

TECHNICAL SKILLS

Languages: Java, Python, C, C++, SQL

Full Stack Development: HTML, CSS, JavaScript, jQuery, React.js, Node.js, Express.js, REST API, UI/UX Design

Databases: MySQL, MongoDB, PostgreSQL

Tools & Platforms: Git, GitHub, BitBucket, JIRA, MS Office, VS Code, Eclipse

Technologies/Frameworks: Spring, SpringBoot, Hibernate, JPA, MERN Stack, Unix, Linux

PROJECTS

Training Scheduler Web App | Java, JPA, Spring, Spring boot, React.js, MySQL

Apr 2025 - July 2025

- Developed a training management web app that allowed managers to assign sessions and trainers based on location and availability, while providing dashboards for trainers to track schedules and holidays, improving overall scheduling accuracy by 35%.

Bike Buddy (Bike pooling App) | Java, Android Studio, XML, Google API | [GitHub](#)

Aug 2023 - May 2024

- Created a student-focused ride-sharing platform that increased bikepooling participation by 40% through a 4-level priority matching system (batch, division, department, college), enhancing both security and convenience.

SakshaMaa (Bachat Gat App) | Java, Android Studio, XML

Jan 2023 - May 2023

- Crafted an Android app to digitalise savings group (Bachat Gat) management, enabling users to manage financial records digitally and reducing manual errors while improving administrative efficiency by 45%.
